SKILLS

Technical Skills	Java, JavaScript, HTML, TailwindCSS, Bootstrap MongoDB, MUI, RSuite, Git
Soft Skills	Resilience, Adaptive Thinking, Proactive Learning
Frameworks	React, Next.js, Node.js, Express

EXPERIENCE

Frontend Developer & Team Lead

Eruna Technologies

Sep 2024 - Sep 2025

Bangalore Karnataka, IN

- Led cross-functional team of 4 developers to build and deploy HR client portal from scratch using React.js, Redux, and custom hooks, serving 10,000+ active users.
- Architected role-based access control system with 9 core modules including Shift Management, Employee Onboarding, and QR-based authentication, achieving 40
- Implemented responsive design with Tailwind CSS, advanced authentication patterns, and performance optimizations resulting in seamless cross-device user experience.

.NET Full Stack Developer

Xiphias Software Technology

Mar 2022 - Sep 2022

Bangalore Karnataka, IN

- Development and Implementation: Designed and developed dynamic webpages, including a CRM and CMS, using .NET MVC and MySQL. Implemented a CMS to streamline CRUD operations and enable real-time updates.
- Project Achievements: Transitioned the company website to dynamic, enhancing functionality and user engagement. Deployed and integrated email-based authentication for secure login and signup.

PROJECTS

HR Client Portal: Led development of enterprise-grade client portal with role-based access control.

- Led 4-developer team building client portal from scratch using React.js, Redux, custom hooks, serving 10,000+ users within 5 months.
- Developed 9 modules (leave, attendance, employee onboarding, reporting, QR integration, shift management) with role-based access (user/manager/super admin) using Tailwind+Bootstrap responsive design.
- Enforced QR mobile-to-web login, auto-logout, user preferences storage (theme/language) via session/localStorage, achieving 40

VRHR Public Portal: Developed responsive corporate website with modern animations and user interactions.

- Built homepage, about section, contact page, and navigation using React.js with responsive design ensuring cross-device compatibility.
- Applied smooth animations and micro-interactions using Framer Motion, enhancing user engagement and creating premium user experience.

EDUCATION

Master of Science, Mangalore University

Major : Computer Science

2019 - 2021

Bachelor of Science, Dharwad University

Major : Computer Science, Physics, Mathematics

2016 - 2019
